# **“New Horizons”**

A full-page background image showing a sunset or sunrise over a dark ocean. The sun is a bright, glowing orb on the right side of the horizon, casting a long, shimmering path of light across the water. The sky is filled with soft, golden light and some wispy clouds. On the left side of the horizon, a small sailboat with dark sails is visible.

# COLLEGE LIFE

College life at Hinds is a kaleidoscope of images. Whether a resident or a commuter, everyone is caught up in the grueling pace. Open dorm, club activities, sports events, socializing, and friends leave little time for anything else after studying. Anyone can fit in, but you first must learn to go with the flow of college life and adjust to a new lifestyle. You must learn to discipline yourself, accomplish your goals, and seek new horizons.

# EVENTS

Events are never-ending at Hinds. From registration to end-of-the-year socials, something is always happening. Dances, concerts, carnivals, beauty pageants, and athletic events are examples of happenings on campus. "Camelot" was presented by the Lendon Players in November. The Halloween carnival and dance occurred in October along with Arts Feast and Homecoming. The Miss Hinds Pageant was held in February as was the Valentine's Dance. The year was brought to a close with the Spring Formal and baseball season. Hinds students have had a busy and exciting year, but one that rarely proved boring.

# FACES

In the years ahead, the faces will be remembered but the names forgotten. With approximately 11,000 students to see at Hinds, it is no wonder. The faces reflect the moods of the school. The happy moments, the moments of sadness, the fun moments, and the moments of seriousness. As we grow older, the experiences, both bad and good are etched into our faces, a record of the year passed. The faces are the one file that will reveal each student's life at Hinds.

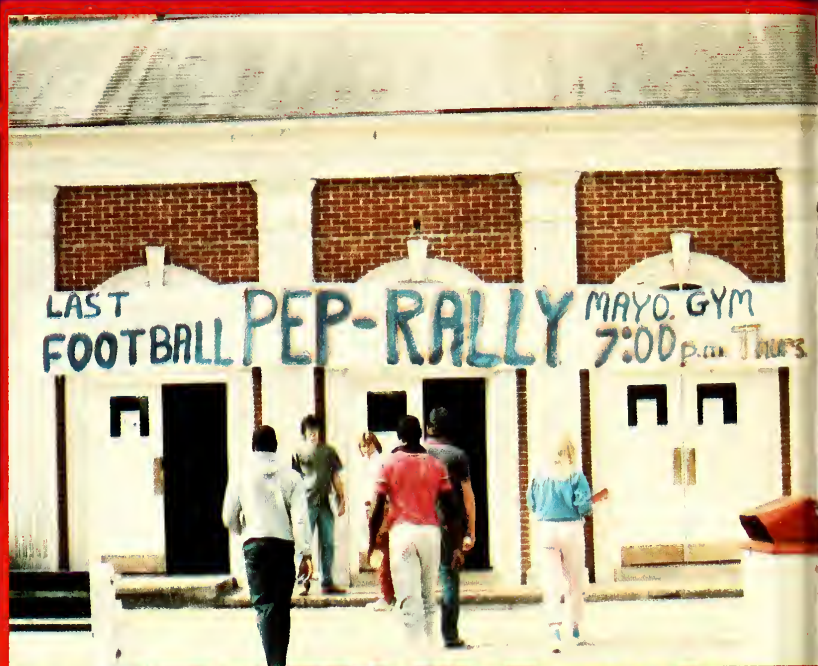

# TRADITION

All traditions change with time. Hinds saw that this year with the new mascot design. Hinds is rich with tradition. Arts Feast and Homecoming are examples of material traditions at Hinds. There are also those traditions of college life which evade the realms of materialism: afternoons at the lake, road trips, and social gatherings after sporting events. The traditions may change, but the meanings they hold never will.

# CAMPUS

Hinds has come a long way since 1917. It has grown from a one-building agricultural school into a modern-day college encompassing seven campuses and counties. The first branch was at Jackson which opened in 1970. Work was started on a Vicksburg branch in 1974, and this year a branch in Rankin County was opened. Along with the addition of Utica Junior College to form the Hinds Junior College District, and the new Nursing/Allied Health Center and Universities Center, Hinds has become a major educational institution with nearly 11,000 students.

# CLASSES

Students at Hinds have a broad curriculum to choose from. They may obtain an Associate Degree in Arts, an Associate Degree in Applied Science, or a certificate of completion in one of the many vocational programs offered. A variety of classes is offered in each of these programs that offer the student the opportunity to discover his or her own interest in a particular field.

# MEMORIES

The memories we have are what we made of the times. The times of joy, anguish, madness, and seriousness. Each memory will fade with time, but the year in general will remain with us forever. The images of the people, the memory of the classes, and the warm feelings of new friendships will blend together to form one lasting impression of the years at Hinds.

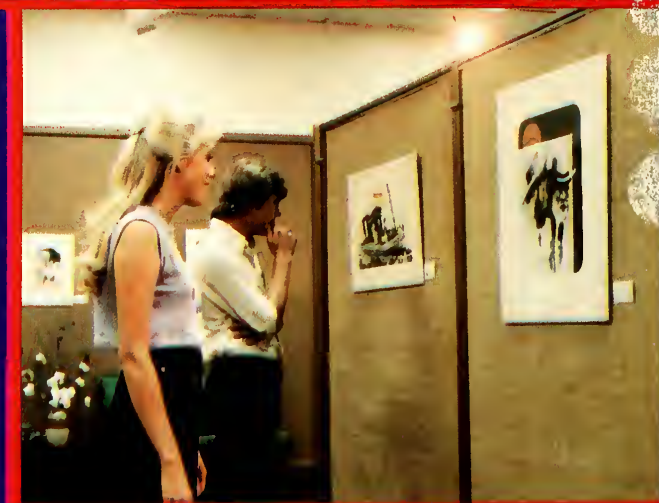

# HORIZONS

**The year is gone and now we look to the future. What lies in store is not for us to know, but we are prepared. As we gaze upon our horizons, we ponder life and ask what's it all about and where will the future take us. We must be patient and our questions will be answered in time as we search for our own new horizons.**

# Dedication

## Clyde and Vashti Muse

The 1984 yearbook staff proudly dedicates the 1984 Eagle to Dr. and Mrs. Clyde Muse.

Dr. Muse's life as President of the Hinds Junior College District is full of administrative duties such as planning the new areas of growth for the College. However, much of his time is spent along with his wife Vashti in attending receptions, welcoming alumni, presenting awards, making speeches, and participating in graduation exercises.

Vashti Muse has been an active first lady of the College. Her activities vary from teaching in the Reading Department to working with various campus organizations and holding open house for students, faculty, and other honored groups. She founded the Hi-Stepper Alumnae Association that was honored during Homecoming this past year when over 120 former Hi-Steppers performed. This marked the 30th Anniversary of the group.

It is with great honor that we dedicate the 1984 Eagle to Dr. and Mrs. Clyde Muse.

# Registration

Registration. What fun! Every student's favorite part of college life at Hinds, and we get to do it once each semester.

Returning students try to prepare themselves for what seems to be hours upon hours spent standing in line, for the many stations that lie ahead, for the disappointment of finding that the classes you needed to have are no longer available, and last but not least, finding that your I.D. picture looks like a mug shot.

Incoming Freshmen who look forward to college life may get the wrong impression about school after spending an entire day registering for classes. But when you've survived and started going to class, you feel like you've really accomplished something.

The best way to sum up registration at HJC is to simply say, "It's an experience".

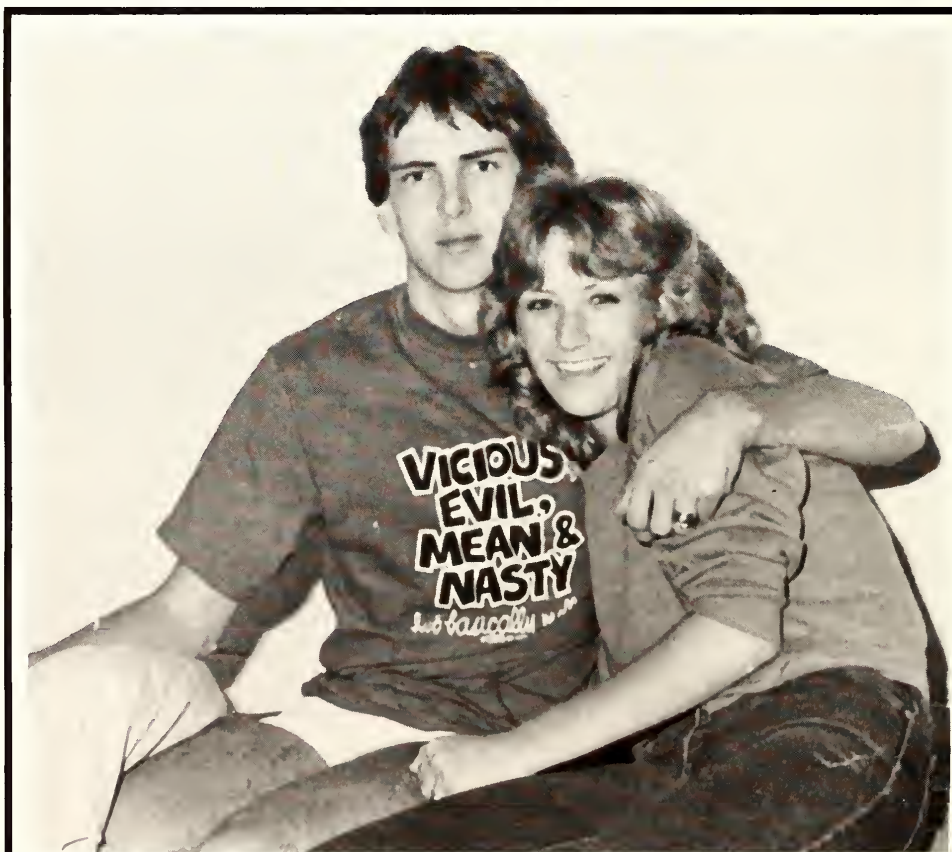

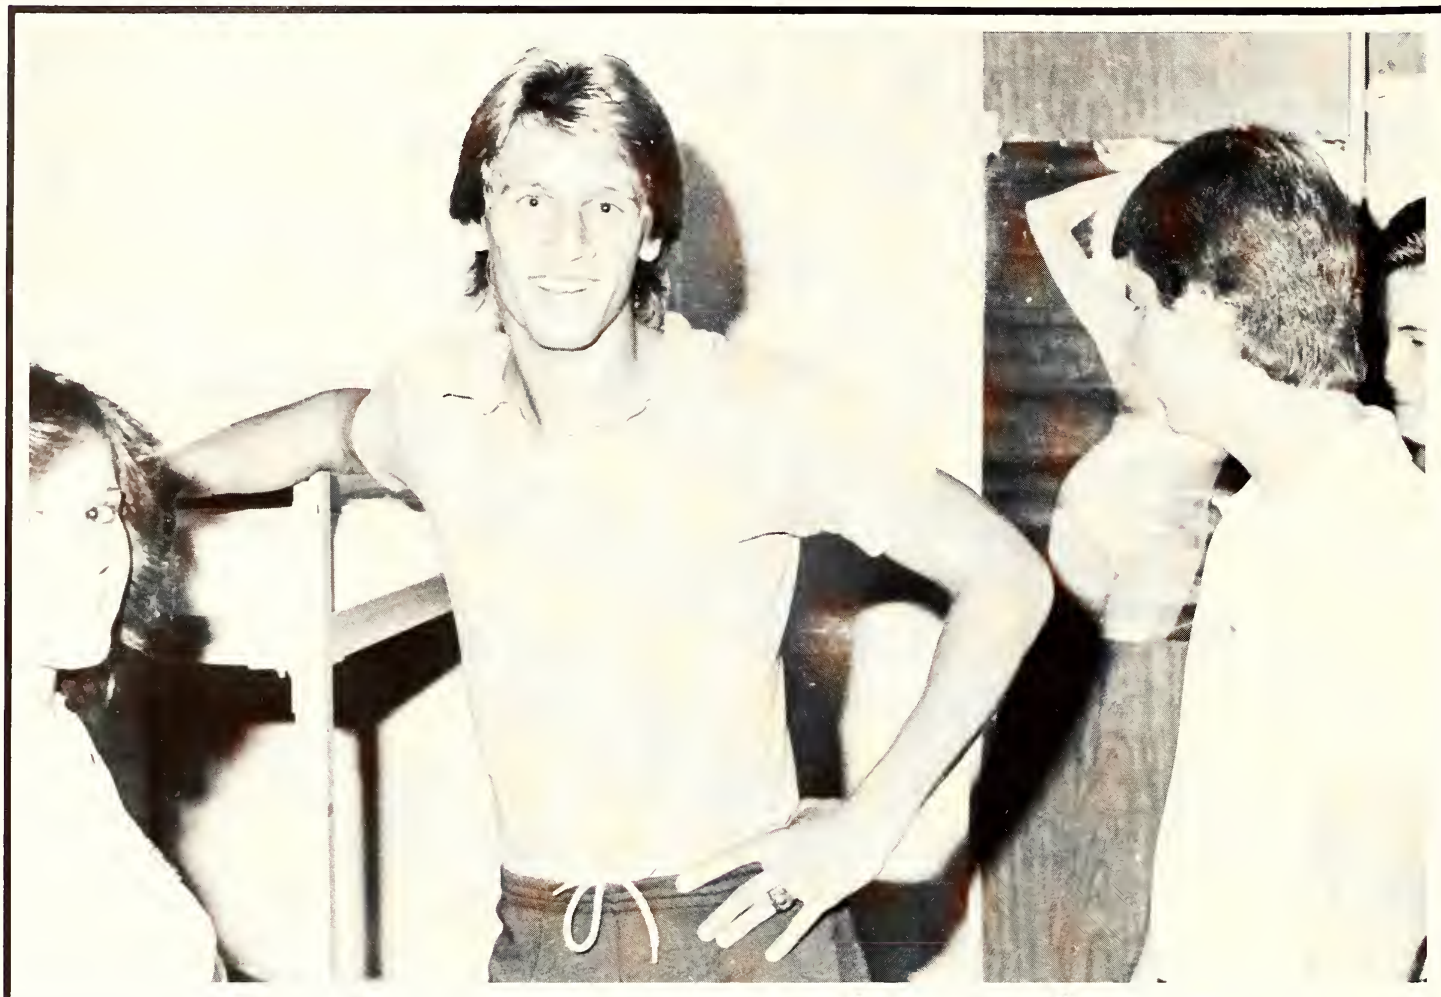

# Registration

# Open Dorm

Several times during the year, Open Dorm is held at Hinds. Under close supervision visitors are allowed to visit rooms in each dorm. Open Dorm allows students to participate in something different and break away from the everyday routines of dorm life.

# Open Dorm

# Arts Feast

Arts Feast Week was held in October which gave students a welcome break from studies. The week had bands such as Dreamer and LeRoux. The Jackson Symphony entertained and a band from Parchman along with other speakers were featured.

# Arts Feast

# Choir Christmas Program

"It's A Small World" was the title of the annual Choir Christmas Program. The concert featured songs from around the world.

# Choir Christmas Program

# Halloween

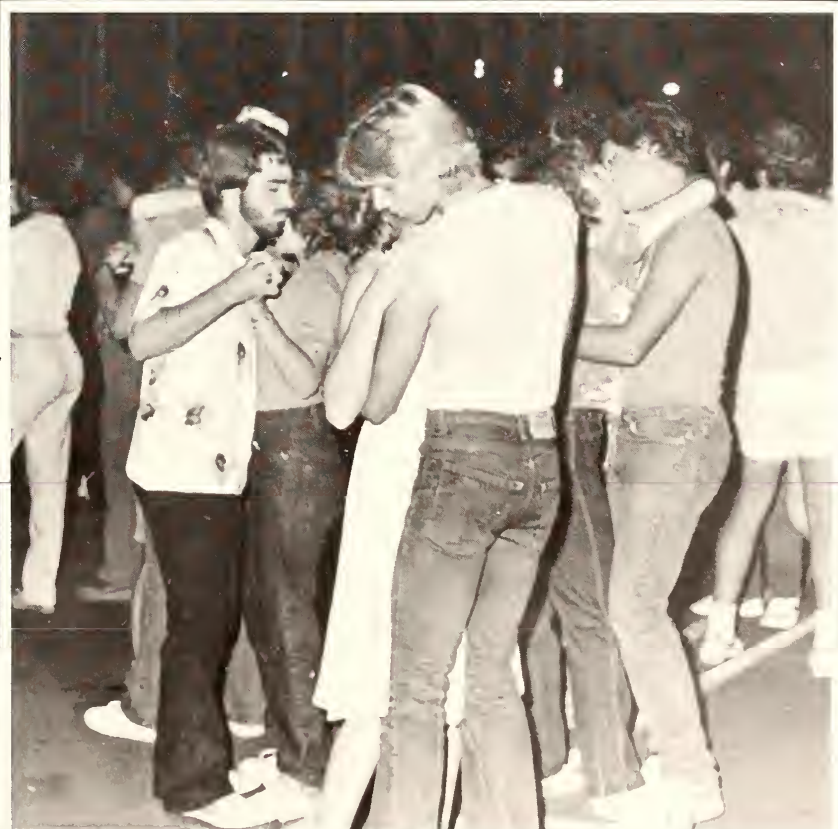

During Halloween, dormitories had parties and a Halloween Carnival was held in the Denton Gym where different clubs had booths.

# Dances

Several times during the year, dances are held at Hinds. These allow students to break away from the studying, homework, and problems of college life and have fun.

# Beauty Pageant

"A Beauty Revue" was the name of this year's beauty pageant sponsored by the yearbook. The pageant selected the top beauties that are featured in the yearbook.

**TOP SIX BEAUTIES** — Winners in the annual beauty pageant were from left: Deborah Parker, Melissa Mason, Sophia Smith, Joy Stewart, Shawn Spalding, Angela Martin.

# Beauty Pageant

# Lendon Players Productions

The Lendon Players fall production was the musical "Camelot." Their production in February was named "God's Favorite."

**"God's Favorite"**

Grammy Award winning recording star Ray Stevens performed at Hinds February 3, 1983. The concert was sponsored by the HJC Programming Board of the Raymond Campus.

Stevens is best known for his comic tunes such as "Ahab the Arab" and the 1975 hit that sold 5 million copies, "The Streak".

Some of his more serious hits include "Everything Is Beautiful" and "Misty" which he won a Grammy Award for in 1975.

# Ray Stevens

Ray Stevens, along with Alex Hedgepeth, ASB Program Coordinator, left, and Ray Stevens' stage manager, right, walk behind stage before showtime.

# Miss Hinds Pageant

On April 22, 1983, the Miss Hinds Pageant was held. It is sponsored each year as a preliminary to the Miss Mississippi Pageant. Competition consists of swimsuit, evening gown, talent, and interview.

L-R: Melissa Mason, 4th alternate, Joy Stewart, 2nd alternate, Betsy Herrington, Miss Hinds, Lisa Bruno, 1st alternate, Amy Wittmayer, 3rd alternate, and Stacey Hinesley who tied with Betsy Herrington in the swimsuit competition.

# Board of Trustees

The Board of Trustees plays an instrumental role in the progress of the Hinds Junior College District. The 15-man Board of Trustees gives freely of their time and wisdom to the needs of the college and shares an insight into a more progressive future for Hinds. The Board members represent Hinds, Rankin, Warren, Claiborne, and Copiah counties.

- (1) **Ted H. Kendall, III — PRESIDENT**  
Hinds County
- (2) **A. A. Alexander —**

## Secretarial Science

This program is designed to prepare students for employment in the secretarial field.

## Offset Printing

This program includes instruction in layout, paste-up, camera operation, plate making, color processing, printing and binding.

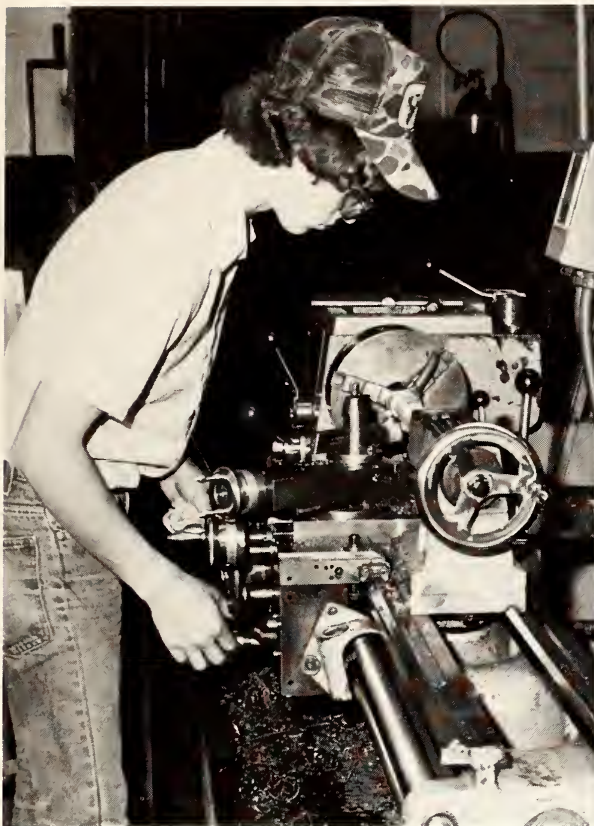

## Distribution and Marketing Technology

This program provides the student with three choices of study: Retail Management, Fashion Merchandising, and Real Estate.

# Machine Shop and Tool and Die Making

This program is designed to prepare students for the beginning level of employment as machinists.

## Carpentry

This program is designed to prepare a student with the basic skills and technical knowledge of the carpentry trade.

## Bricklaying

This program is designed to prepare students for employment as brick masons.

## Welding

This course is designed to enable the students to acquire the basic skills, the technical knowledge, and the related information necessary for employment in the field of welding.

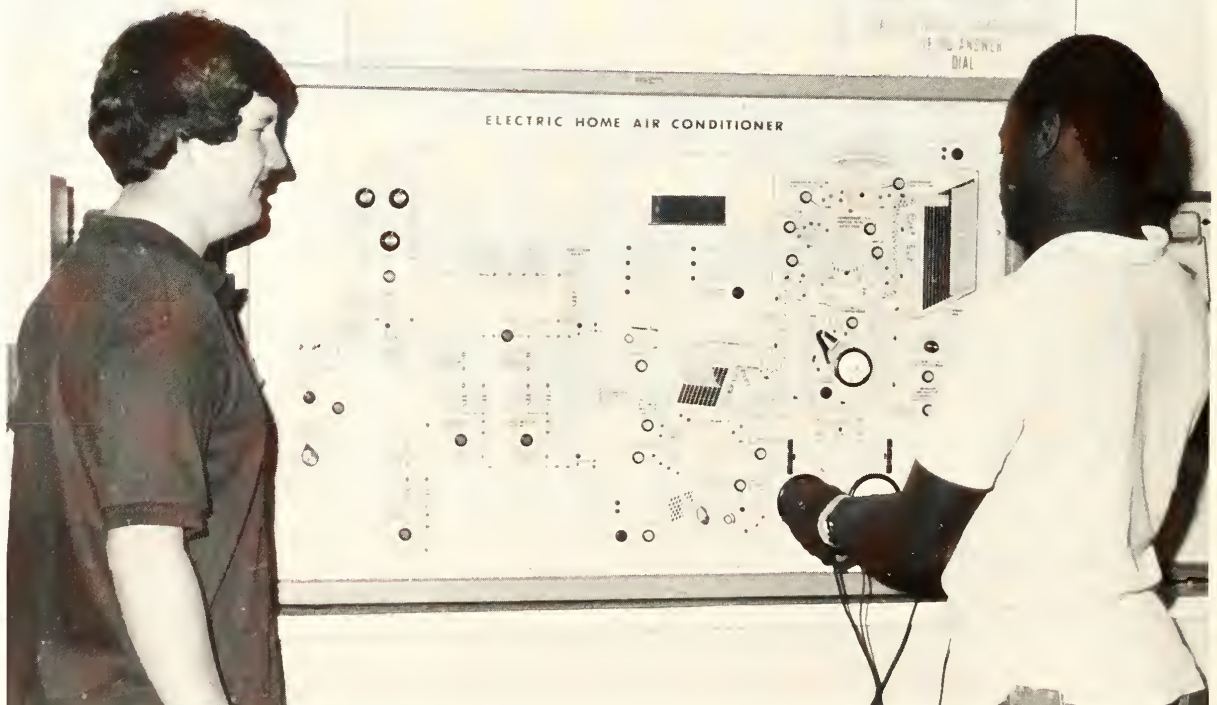

## Electric Motor Repair

This program enables students to develop skills and knowledge in stripping, recording, insulating, and other aspects of motor repair.

## Refrigeration and Air Conditioning

This course provides students with instruction in the operating principles, procedures, techniques, and theory of air conditioning and refrigeration systems.

## Barbering and Hair Care

This program includes theory, laboratory shopwork and other specialized learning experiences relative to haircutting, styling, perming, coloring, and skin care.

## Automotive Parts and Sales

This program includes theory, laboratory, shop work and other experiences relative to receiving, stocking, selling, and shipping merchandise in the automotive after-market.

## Automotive Mechanics

This program gives students experience in overhauling engines, transmissions, clutches, and in dealing with other problems that are encountered in repairing automobiles.

## Agricultural Diesel Mechanics

This program includes a study of engine design, use, maintenance and repair techniques of agricultural diesel machines.

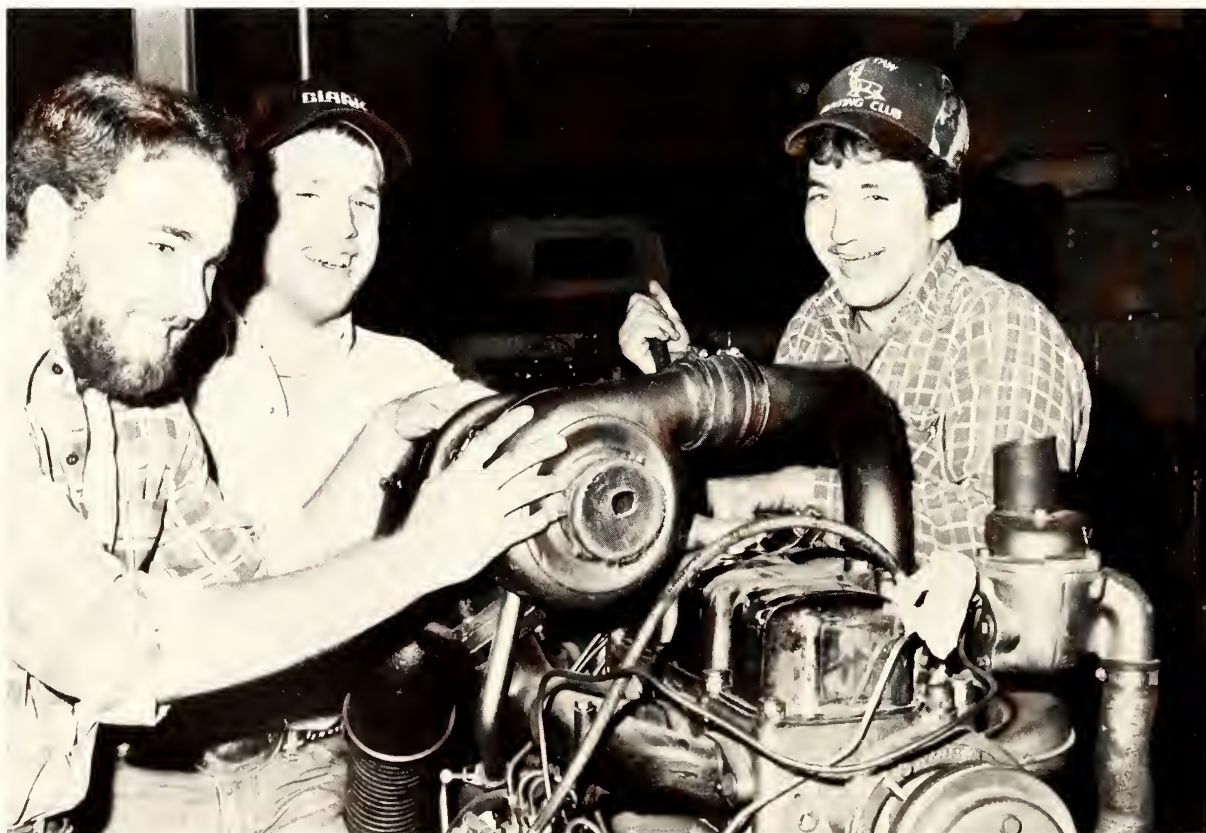

## General Electricity and Wiring

Upon completion of this program, a graduate will be capable of installing and maintaining electrical circuits, panels, and providing electrical service to commercial and industrial users.

## Diesel and Truck Mechanics

This program gives students experience in overhauling engines, transmissions, clutches, and in dealing with other problems that are encountered in repairing trucks and many types of diesel equipment.

# Drafting and Design Technology

This program is designed to give students the skills and experience needed for employment in the drafting and design field of work.

## Industrial Drafting

This is a one or two year drafting program with emphasis on basic and advanced drafting techniques and basic architectural drafting.

## Radio and Television Servicing

This program gives instruction in electrical theories and their relationship to radio and television sets.

## Meat Merchandising

This program is designed to give specialized training in the field of meat processing.

## Office Machine Repair

Training in this program emphasizes the functions and adjustments of all standard office machines, as well as cleaning, repairing and estimating the cost of repairs on these machines.

## Farm Management

This program is designed to teach students how to successfully handle all aspects of managing a farm.

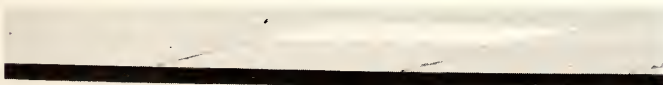

# Medical Records Technology

This program includes teaching students how to accurately number, file, classify, and analyze medical records.

## Electronics Technology

The Electronics Technology program is designed to give students an understanding of electronic circuits and to prepare them for a job in electronics.

## Electronic Data Processing

This program is designed to prepare students for a future understanding, programming, and analyzing computer operations.

## Agribusiness

This program enables students to learn the business aspects of owning and running a farm.

## Commercial Design and Advertising

Students in the CDA program learn layout, printing, and other aspects of design and advertising.

## Animal Health Technology

This program prepares students for employment as animal health technicians.

# Airframe and Powerplant Maintenance

This program prepares the student to take the FAA Mechanics exam.

# Automotive Body and Frame Repair

This program includes class-room and shop learning experiences designed to prepare the student for jobs dealing with the repair of automotive and truck bodies and frames.

# Office Microcomputer Specialist

The Office Microcomputer Specialist program gives students the practice needed in working with microcomputers.

## Hotel, Motel and Restaurant Management

Courses in the Hotel, Motel and Restaurant Management program prepare students for the responsibilities of running their own business.

## Child Care Development

Effective techniques of guidance and discipline, and practices of safety and health are included in the Child Care Development program.

# Automotive Mechanics

Students enrolled in the Automotive Mechanics Program receive much practical experience needed when repairing automobiles which prepares them for employment as automobile mechanics.

# Bank Teller and Proof Operations

Students are trained in the Business and Office Training Program for initial employment in the clerical field.

## Welding

Basic skills and technical knowledge is needed for employment as welders as is offered in the Welding Program.

## Automotive Machinist

Courses in the Automotive Machinist program prepare students with the background needed in dealing with automotive machines.

## Secretarial Science

The Secretarial Science program prepares qualified students for initial employment in the secretarial field.

## Dental Assisting

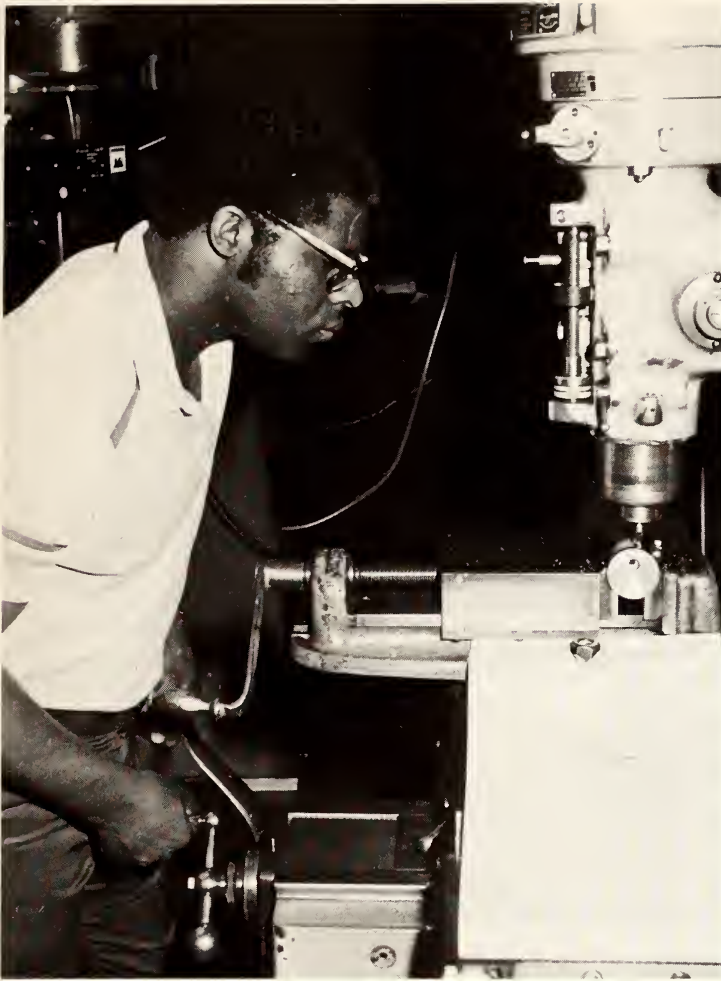

The development, function, status, and organization of the dental profession is presented in the Dental Assisting program.

## Machine Shop and Tool and Die Making

Machine Shop and Tool and Die Making is a program designed to prepare students for the beginning level of employment as machinists.

## Industrial Drafting

The Industrial Drafting Department offers the student a one or two year program with the two year course involving a much broader base in the drafting field.

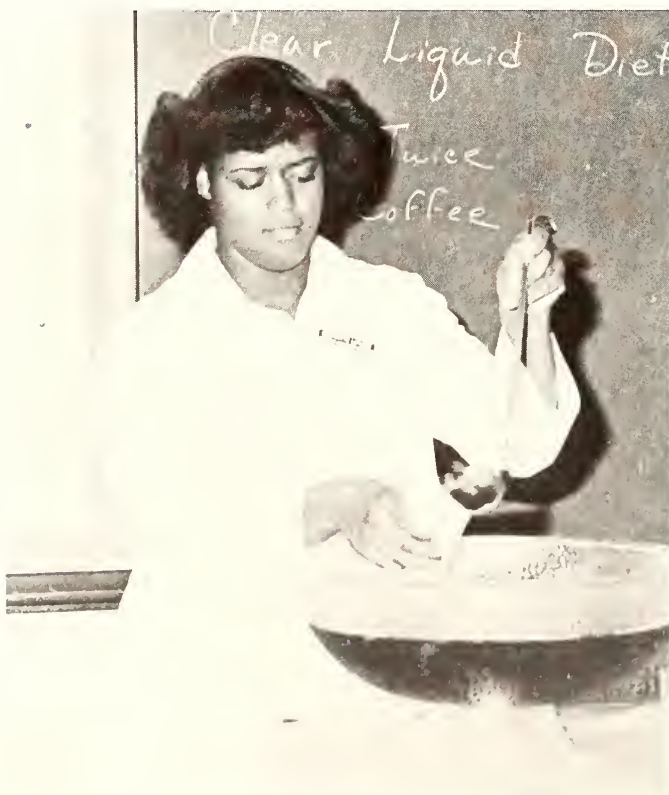

# Radio and Television Servicing

Instruction is given in electrical theories and their relationship to radio and television sets, receivers and test equipment in the Radio and Television Servicing Program.

# Dietetic Technology

The Dietetic Technology program prepares students for institutional food management.

# Business and Office Training

The Business and Office Training program is intended for those persons whose primary objective is to train for initial employment in the clerical field.

# Surgical Technology

Courses in the Surgical Technology program are designed to prepare qualified students to become certified surgical technicians after successful completion.

## Respiratory Therapist

The Respiratory Therapist Program has been designed to equip a graduate for successful employment opportunities as a respiratory therapist.

The Respiratory Technician Program has been designed to equip a graduate for successful employment opportunities in the field of respiratory therapy.

## Respiratory Technician

## Medical Laboratory Technology

Students in the Medical Laboratory Technology program must spend 27 weeks in a hospital laboratory to learn the techniques of a busy clinical laboratory.

## Licensed Practical Nursing

After passing the State Board Examination students can become Licensed Practical Nurses completion of the one-year Practical Nursing Program.

# Phlebotomy

Phlebotomy teaches students to successfully obtain specimens of blood for the clinical laboratory.

## Associate Degree Nursing

The purpose of Hinds Junior College District Associate Degree Nursing program is to prepare for this community Associate Degree nurses who have the necessary skills and competencies to assist individuals and groups in meeting their commonly recurring health care needs. The graduate of this nursing program receives an Associate Degree in Applied Science and is prepared to write the State Board Test Pool Examination for licensure.

## Intensive Business Training

This program is designed to train for career opportunities as: secretary, word processing, receptionist, file clerk, bookkeeper, typist, computer operator, office machine operator.

## Carpentry

This program is designed to train for career opportunities as: frame carpenter, finish carpenter, contractor, cabinet maker, physical plant operator, lumber salesman, sheetrock installer, roofer, furniture repairperson, or painter.

## Diversified Occupations

This program is designed to train for career opportunities in: sales occupations, recreation and tourism, mechanics, child care, office occupation, food service, building trades, and allied health occupations.

## Industrial Drafting

This program is designed to train for career opportunities in the following drafting areas: mechanical, structural, architectural, electrical, civil, metal production, piping, and topographic.

## Automotive Body and Frame Repair

This program is designed to train for career opportunities as: sheet metal repair technician, painter, frame repair technician, service manager, insurance estimator, windshield and door glass technician.

## Metal Trades

This program is designed to train for career opportunities as: machinist, welder, sheet metal worker, machine setup worker, layout worker, inspector, metal patternworker, machine operator, structural steelworker, or toolmaker.

## Refrigeration and Air Conditioning

This program is designed to train for career opportunities as: refrigeration service technician, parts and supplies salesman, equipment estimator, service manager, retail business owner, building maintenance cooling and heating mechanic, and manufacturers representative.

## Automotive Mechanics

This program is designed to train for career opportunities as: lubrication specialist, tune-up specialist, diagnostic technician, parts specialist, brake specialist, transmission specialist, front end specialist, electrical specialist, service manager, or shop supervisor.

## Agricultural Diesel Mechanics

This program is designed to train for career opportunities in: independent repair shop, agriculture equipment, heavy equipment, oil field, service departments of dealers, truck leasing companies, electric power plants, marine, or railroad locomotive shops.

## Industrial Electricity and Electronics

This program is designed to train for career opportunities in: audio, video, biomedical equipment, computer repair maintenance, industrial electricity, industrial electronics, aircraft electronics, communications, military electronics, automotive electronics, or security systems.

## Allied Health Cluster

This program is designed to prepare persons to assist qualified health professionals in the following health care professions: diagnostic, therapeutic, preventive, restorative, and rehabilitative.

## Marketing Distributive Education

This program is designed to train for career opportunities in: advertising services, apparel and accessories marketing, business management and ownership, display services, finance and credit services, food marketing, general merchandise retailing, petroleum marketing, real estate marketing, wholesaling and physical distribution.

## Plumbing and Pipe Fitting

This program is designed to train for career opportunities as: plumber, pipefitter, maintenance person, sprinklerfitter, steamfitter, lay-out mechanic, repair mechanic, instrumentation mechanic.

## Professional Quality Foods

This program is designed to train for career opportunities as: waiter-waitress, professional cook, salad and soup cook, baker, fry cook, vegetable cook, food purchaser, seafood and meat cook, dessert cook, buffet manager, manager for garnishing and special functions, sanitation personnel.

# Eagle Staff

# Editors' Message

It is our greatest wish that the 1984 Eagle will be an enjoyable trip into the past for you. It sure brings back memories for us! Early morning trips to the reservoir for pictures (4:00 a.m. to be exact), bull sessions in the office, taking the truck to the shop, and getting to know each other, to name a few times.

There have been hard times, though. We started out with a lot of eager people. First we lost the eagerness, then we lost the people. Even so, we have gathered a collection of memories that we hope you will be proud of.

We would like to say a special thank-you to our advisor, "Uncle" Bob Hodges. Without his help, there would have been no yearbook. Thanks for your patience (?) and advice, Bob!

It is with mixed feelings; those of sadness to see it finished, and those of relief that we finally did it, that we present to you the 1984 Eagle.

Good luck to each of you.

*Amy Sparks*
